

Grouser Bar

Chrome-X (High Chrome)
Heat Treated

GENERAL INFORMATION

- Chrome-X grouser is made from premium boron steel which facilitates ice lug weldability.
- The addition of chromium only further enhances the strength of the grouser.
- Heat treated to a Rockwell hardness of Rc 45 - 50.
- Chrome-X grouser is one of the toughest and longest lasting grouser bars on the market.
- Ideal for extreme weather and working conditions.
- Available in 10'-0 lengths.
